

A novel APP processing pathway and its physiological function in modulation of synaptic activity

<https://neurodegenerationresearch.eu/survey/a-novel-app-processing-pathway-and-its-physiological-function-in-modulation-of-synaptic-activity/>

Principal Investigators

MARIE Hélène

Institution

IPMC, UMR7275 CNRS/UNS

Contact information of lead PI Country

France

Title of project or programme

A novel APP processing pathway and its physiological function in modulation of synaptic activity

Source of funding information

Fondation Plan Alzheimer

Total sum awarded (Euro)

€ 150,000

Start date of award

xx/xx/2015

Total duration of award in years

2

Keywords

Research Abstract
