

AgeCoDe Cohort

<https://neurodegenerationresearch.eu/survey/agecode-cohort/>

Title of cohort

AgeCoDe Cohort

Acronym for cohort

AgeCoDe

Name of Principal Investigator - Title

Prof

Name of Principal Investigator - First name

Wolfgang

Name of Principal Investigator - Last name

Maier

Address of institution -Institution

University of Bonn

Address of institution - Street address

Sigmund-Freud-Str. 25

Address of institution - City

Bonn

Address of institution - Postcode

53125

Country

Germany

Funding source

Q1a. Please indicate below if your cohort includes or expects to include, incidence of the following conditions?

Alzheimer's disease and other dementias

Q1b. When are studies on the above condition(s) expected to become possible?

Already possible

Q2a. In a single sentence what is the stated aim of the cohort?

Prospective cohort study (n=3300) of initially dementia free elderlies with (a) regular follow up all 18 months and (b) further interimassessments all 6 months.

Q2b. What distinguishes this cohort from other population cohorts?

higher age

Q3a. i) Number of publications that involve use of your cohort to date

0

Q3a.ii) Please give up to three examples of studies to date (Principal Investigator, Institution, Title of Study)

Q3b. If data on research outputs are already available please paste the publication list/other data or provide a link to where these data are publicly available

Q3c. If no research has been done as yet, please explain in a few sentences what information (i.e. research findings) you expect will be gained from the population

Q4a. Study criteria: what is the age range of participants at recruitment? Age in years From:

75

Q4a. Study criteria: what is the age range of participants at recruitment? To:

until death

Q4b. Study criteria: what are the inclusion criteria?

Registered by GP, Germans and other language

Q4c. Study criteria: what are the exclusion criteria?

dementia at base line, living in nursing home at baseline

Q5. What is the size of the cohort (i.e. how many participants have enrolled)?

1,000-5,000 participants

Q6a. Please describe what measures are used to characterise participants

cognition, memory, depression, mobility, family anamnesis

Q6b. Are there additional measures for participants with a clinical disorder?

Q6c. Are there defined primary and secondary endpoints (e.g. defined health parameters)?

No

If yes please specify

Q7. What is the study design (select all that apply)?

Prospective cohort

Q8. Are your cases matched by

Age

Q9a. Does your study include a specialised subset of control participants?

Q9b. If your study includes a specialised subset of control participants please describe

Q10a. i) Please enter the data collection start date

01/01/2001

Q10a. ii) Please enter the data collection end date

Q10a. iii) Is data collection for this study

Closed to new patients

Q10b. If data collection is ongoing, are there plans to continue the cohort study beyond the current projected end date?

Yes - intend to apply for funding

Q11. Is data collected

Other please specify here

Q12. Is there a system in place to enable re-contact with patients to ask about participation in future studies?

Yes (participants given permission to be re-contacted via PIs)

Q13a. Please give information on the format and availability of data stored in a database (1)

% available

Q13a. Please give information on the format and availability of data stored in a database (2)

% available

Q13a. Please give information on the format and availability of data stored in a database (3)

% available

Q13a. Please give information on the format and availability of data stored in a database (4)

% available

Other (please specify)

% available

Q13b. Please give information on the format and availability of data held as individual records (1)

% available

Q13b. Please give information on the format and availability of data held as individual records (2)

% available

Q13b. Please give information on the format and availability of data held as individual records (3)

% available

Q13b. Please give information on the format and availability of data held as individual records (4)

% available

Please specify language used

Q14a. Is data available to other groups?

Yes

Q14b. If data is available to other groups what is the access policy/mechanisms for access?

Q15. What data sharing policy is specified as a condition of use?

Data to be made publicly available immediately

Q16a. Are tissues/samples/DNA available to other groups?

Yes

Q16b i) If yes, please describe below:

Living donors: blood|Living donors: blood derivatives|Living donors: DNA

Q16b. ii) In what form are tissues/samples/DNA supplied?

Q16b. iii) Is the access policy/mechanism for obtaining samples the same as that for obtaining data (Q14 above)?

Q17. Is information on biological characteristics available to other groups?

Number of Patients

% of total cohort

DNA 100%, blood samples 60%

Types:

Population Cohorts

Member States:

Germany

Diseases:

Alzheimer's disease & other dementias

Years:

2016

Database Categories:

N/A
