Project/infrastructure description

The "CERMEP - in vivo imaging" is constituted by four departments: PET: Positron Emission Tomography MRI: Magnetic resonance imaging MEG: Magnetoencephalography ANIMAGE: in vivo small animal imaging platform with a microMRI, a microPET / CT and a micro-CT

Date funding committed

01/01/2013

Date infrastructure operational

01/01/2014

Total capital cost (Euros)

Part of FLI (€14,000000 total)

Does the 'Total Capital Cost' include other associated costs? Current infrastructure status

Operational

Is this entry applicable to another section of this questionnaire?

Research Networks

Further information available at:

Platform is part of FLI. France Life Imaging bears the ambition to become the privileged point of access to the biomedical imaging research, and gathers under its banner a federative network of research teams and

facilities.https://www.cermep.fr//ged.php?login=vvv&catagenda=1491877696&pk_orga=10&pkcat
