

Manchester Brain Bank

<https://neurodegenerationresearch.eu/survey/manchester-brain-bank/>

Name of bioresource/bank

Manchester Brain Bank

Name of Principal Investigator

Title Professor

First name David

Last name Mann

Address of institution where award is held

Institution Hope Hospital

Street Address Stott lane

City Salford

Postcode M6 8HD

Country

United Kingdom

Website

n/a

Contact email (e.g. manager or coordinator)

david.mann@manchester.ac.uk

Funding source

Brains for Dementia Research (until October 2012)

Q1 What conditions does your resource cover?

Alzheimer's disease and other dementias

Prion disease

Motor neurone diseases

Parkinson's disease

Huntington's disease

Q2a What DNA collection does your resources hold?

None

Q2b What cell lines does your resource hold?

None

Q3 Are human tissues/samples/DNA from

Post-mortem donors: brain

Q4 Are tissues/samples/DNA from

Healthy individuals/control donors

Patients

Q5 Can samples be linked to clinical (phenotypic) information and if so, is this information:

In a specific study-associated dataset

Q6 In what form are samples supplied?

Primary samples: Supplied fresh

Primary Samples: Stabilised samples (frozen or fixed)

Q7 Are biomarkers/analytes/biological characteristics already measured and the information available for your samples?

No

Q9 What are the rules and procedures for access?

Access independent of collaboration with PI

Access Committee mechanism

Local/ regional access

National access

International access

Access for pilot studies permitted

Access restricted to peer-reviewed work

Resource has own ethics approval so usually no need for separate external ethics approval
