## Question

### Infrastructure name

MRI 3T/11,7T, MRI-TMS 3T, PET-MRI 3T - CENIR, Université Pierre et Marie Curie

## Related

### Institute/location

CENIR - Université Pierre et Marie Curie

## Key contact

LEHERICY S

## Contact phone number

## Contact email

[stephane.lehericy@upmc.fr](mailto:stephane.lehericy@upmc.fr)

## Project/infrastructure description

The CENIR is a research platform entirely dedicated to integrative, cognitive and clinical neurosciences in the normal and pathological brain. The centre promotes the development of basic and applied research in neurology and psychiatry based on the large recruitment of patients and the great research potential in neurosciences of the Pitié-Salpêtrière Hospital and the University Pierre and Marie Curie - Paris 6

## Date funding committed

01/01/2013

## Date infrastructure operational

01/01/2014

## Total capital cost (Euros)

Part of FLI (€14,000000 total)

## Does the 'Total Capital Cost' include other associated costs?

## Current infrastructure status

Operational

## Is this entry applicable to another section of this questionnaire?

## Research Networks

### **Further information available at:**

Platform is part of FLI. France Life Imaging bears the ambition to become the privileged point of access to the biomedical imaging research, and gathers under its banner a federative network of research teams and facilities. <http://www.cenir.org/cenir.html?lang=en>
