Principal Investigators

Claire THIRIEZ

Institution

APHP Paris

Contact information of lead PI

Country

France

Title of project or programme

PREdiction de la DEMence PARKinsonienne grâce à la mesure du métabolisme cérébral en TEP. PREdiction of PARKinsonian DEMENCE by Measuring PET Cerebral Metabolism

Source of funding information

DGOS

Total sum awarded (Euro)

€ 281,000

Start date of award

xx/xx/2014

Total duration of award in years

3

Keywords

Research Abstract
