

The regional health agencies are intended to implement the National Health Policy

<https://neurodegenerationresearch.eu/survey/the-regional-health-agencies-are-intended-to-implement-the-national-health-policy/>

Briefly, is there anything else about your national or regional policies that you would like to explain or tell us about that is already captured? For example, if both exist, does the regional policy add to or complement the national policy?

The regional health agencies are intended to implement the National Health Policy
