

# The role of low complexity domain mutations in RNA-binding proteins associated with Motor Neuron Disease pathogenesis

<https://neurodegenerationresearch.eu/survey/the-role-of-low-complexity-domain-mutations-in-rna-binding-proteins-associated-with-motor-neuron-disease-pathogenesis/>

## Principal Investigators

Dr Martina Hallegger

## Institution

University College, London (Institute of Neurology) and Francis Crick Institute

## Contact information of lead PI

### Country

United Kingdom

## Title of project or programme

The role of low complexity domain mutations in RNA-binding proteins associated with Motor Neuron Disease pathogenesis

## Source of funding information

MND Association

## Total sum awarded (Euro)

€ 528,731

## Start date of award

01/01/2016

## Total duration of award in years

4.0

## The project/programme is most relevant to:

Motor neurone diseases

## Keywords

Research Abstract

Lay Summary

Further information available at:

**Types:**

Investments > €500k

**Member States:**

United Kingdom

**Diseases:**

Motor neurone diseases

**Years:**

2016

**Database Categories:**

N/A

**Database Tags:**
