

The Thomas Willis Brain Bank

<https://neurodegenerationresearch.eu/survey/the-thomas-willis-brain-bank/>

Name of bioresource/bank

The Thomas Willis Brain Bank

Name of Principal Investigator

Title Olaf

First name Ansorge

Last name Dr

Address of institution where award is held

Institution Department of Neuropathology

Street Address John Radcliffe Hospital

City Oxford

Postcode OX3 9DU

Country

United Kingdom

Website

n/a

Contact email (e.g. manager or coordinator)

Carolyn.sloan@clneuro.ox.ac.uk

Q1 What conditions does your resource cover?

Alzheimer's disease and other dementias

Prion disease

Motor neurone diseases

Neurodegenerative disease in general

Q2a What DNA collection does your resources hold?

None

Q2b What cell lines does your resource hold?

None

Q2c What tissue (including post-mortem tissue) does your resource hold?

None

Q3 Are human tissues/samples/DNA from

Post-mortem donors: brain

Post-mortem donors: spinal cord

Q4 Are tissues/samples/DNA from

Healthy individuals/control donors

Patients

Q5 Can samples be linked to clinical (phenotypic) information and if so, is this information:

In a specific study-associated dataset

Q6 In what form are samples supplied?

Primary samples: Supplied fresh

Primary Samples: Stabilised samples (frozen or fixed)

Q7 Are biomarkers/analytes/biological characteristics already measured and the information available for your samples?

No

Q8 What is the status of your tissue/sample/DNA collection?

Collection ongoing

Q9 What are the rules and procedures for access?

Access Committee mechanism

Local/ regional access

National access

International access

Access to industry

Access for pilot studies permitted

Resource has own ethics approval so usually no need for separate external ethics approval
