

Novel Restorative and Protective Treatment Strategies in Animal Models of Parkinson's Disease

<https://neurodegenerationresearch.eu/survey/title-of-pinoval-restorative-and-protective-treatment-strategies-in-animal-models-of-parkinsons-disease/>

Title of project or programme

Title of PI Novel Restorative and Protective Treatment Strategies in Animal Models of Parkinson's Disease

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
Professor Anders			Lund university	Sweden

Address of institution of lead PI

Institution Lund university
Street Address
City Lund
Postcode 221 84

Country

- Sweden

Source of funding information

Swedish Research Council

Total sum awarded (Euro)

567834

Start date of award

01-01-2011

Total duration of award in months

36

The project/programme is most relevant to

- Parkinson's disease

Keywords

Parkinsons disease; Cell transplantation; Alpha synuclein; Nurr1; GDNF

Research abstract in English

Lay summary

In which category does this research fall?

- Basic research
