Street Address PObox 725

City Utrecht

Postcode 3500 AS

Country

- Netherlands

Source of funding information

Netherlands Organisation for Health Research and Development (ZonMw)

Total sum awarded (Euro)

350000

Start date of award

16-04-2010

Total duration of award in months

24

The project/programme is most relevant to

- Alzheimer's disease and other dementias

Keywords

Alzheimer's; dementia, housing, small scale living, quality of life; labour market; professionals; nursing homes

Research abstract in English

Gain insight in the organisational aspects of different types of housing offered to people with dementia living in nursing homes. Measuring the effects of different types of housing on

- professionals (numbers, level of education and labour satisfaction);
- people with dementia (quality of life);
- quality of care.

The sequel gives insight in the changes in these aspects as well as in the origins and consequences of these changes.

Lay Summary

In which category does this research fall?

- Health and social care research
