

UK Stem Cell Bank

<https://neurodegenerationresearch.eu/survey/uk-stem-cell-bank/>

Name of bioresource/bank

UK Stem Cell Bank

Name of Principal Investigator

Title Dr

First name Glyn

Last name Stacey

Address of institution where award is held

Institution National Institute Biological Standards and Control

Street Address Blanche Lane

City South Mimms

Postcode EN6 3QG

Country

United Kingdom

Website

www.ukstemcellbank.org.uk

Contact email (e.g. manager or coordinator)

Charles.Hunt@nibsc.hpa.org.uk

Funding source

Medical Research Council

Biotechnology and Biological Sciences Research Council

Q1 What conditions does your resource cover?

Huntington's disease

Neurodegenerative disease in general

Q2a What DNA collection does your resources hold?

None

Q2b What cell lines does your resource hold?

51-100 distinct cell lines

Q2c What tissue (including post-mortem tissue) does your resource hold?

None

Q3 Are human tissues/samples/DNA from

Living donors: other, please specify below

Q4 Are tissues/samples/DNA from

Healthy individuals/control donors

Patients

Q5 Can samples be linked to clinical (phenotypic) information and if so, is this information:

Routinely collected as medical records

Q6 In what form are samples supplied?

Secondary samples: other types of cell lines

Q7 Are biomarkers/analytes/biological characteristics already measured and the information available for your samples?

In most samples

Q8 What is the status of your tissue/sample/DNA collection?

Q9 What are the rules and procedures for access?

Access Committee mechanism

Local/ regional access

National access

International access

Access to industry

Access for pilot studies permitted
